# The China Hi-Tech Fair 2023

November 15-19, 2023

Shenzhen Convention and Exhibition Center (Futian), China

*Invigorate the power of innovation  
Upgrade the quality of development*

*Gather technological innovation resources for industrial transformation and upgrading  
Advance international scientific and technological exchange and cooperation for robust economic development*

- ★ Tech Master
- ★ Industry Leader
- ★ Innovation Pioneer

The China Hi-Tech Fair is jointly held by P.R. China's Ministry of Commerce, Ministry of Science and Technology, Ministry of Industry and Information Technology, National Development and Reform Commission, Ministry of Agriculture and Rural Affairs, National Intellectual Property Administration, Chinese Academy of Sciences, Chinese Academy of Engineering, and Shenzhen Municipal People's Government. It has been running for 24 years in Shenzhen on an annual basis and is the largest, most prominent and influential hi-tech exhibition in China.

The China Hi-Tech Fair combines tech achievement, product display, high-level forums, investment promotions, and business exchange and cooperation, with a particular emphasis on showcasing advanced technologies and products in areas such as artificial intelligence, high-end equipment manufacturing, environmental protection, new generation information technology, new display technology, smart cities, and digital healthcare.

With years of development, the China Hi-Tech Fair has become an important window for China's hi-tech industry to open up to the outside world. It plays an increasingly important role in promoting the commercialization, industrialization, and internationalization of hi-tech achievements, as well as promoting economic and technological exchanges and cooperation between countries and regions.

The China Hi-Tech Fair 2023 will take place from November 15-19, with two venues respectively in Futian and in Bao'an. The event will feature an opening ceremony, VIP tours, summit forums, themed forums, exhibitions, tech workshops, and launches of new products and technologies. We cordially welcome friends from around the world!

*China Hi-Tech Fair: Most Prominent Technology Event in 2023*

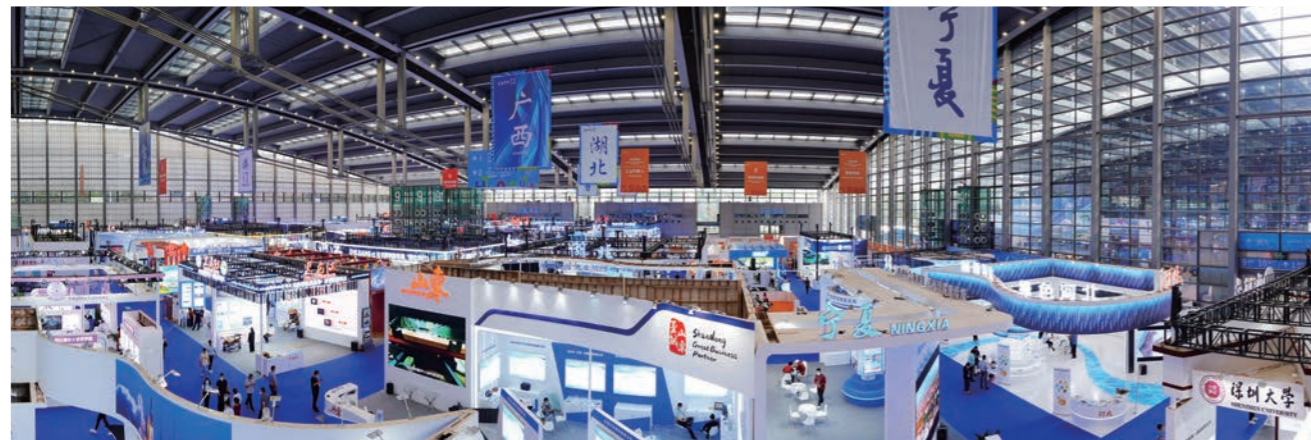

You will see...

- The global debut of cutting-edge and industry-leading products and technologies
- Technological innovation and connectivity in countries along the Belt and Road Initiative amid its 10th anniversary
  - The latest scientific research achievements, national major scientific and technological projects, and national strategic emerging industries during the 14th Five-Year Plan
- New policies, standards, and research cooperation demands announced by China's state ministries, commissions, bureaus, and institutes, local government delegations, and institutions from home and abroad
- A diverse range of technology conferences and events that offer a comprehensive understanding and update of industry knowledge and skills
- Unicorns and technologically-advanced small and medium-sized enterprises showcasing regional innovation strength and economic vitality
  - Hi-tech forums bringing together top scientists, executives from Fortune 500 companies, and KOLs
- An excellent platform for brand promotion, covered by more than a thousand reporters from hundreds of major media outlets
- A full range of services for the transformation of technological innovation achievements based on different needs at different stages

## China's Prime Science and Technology Carnival

The China Hi-Tech Fair is highly valued by P.R. China's Ministry of Commerce, Ministry of Science and Technology, Ministry of Industry and Information Technology, National Development and Reform Commission, Ministry of Agriculture and Rural Affairs, National Intellectual Property Administration, Chinese Academy of Sciences, Chinese Academy of Engineering and other related institutions. Apart from sending national-level delegations every year, they encourage enterprises, scientific research institutes, and national-level exemplary projects, exemplary bases, key laboratories, R&D centers, and industrial alliances to showcase China's technological development directions, major science and technology projects, and strategic emerging industries at the Fair. The role of the Fair has been fully affirmed in advancing the industrialization of hi-tech achievements, the development and exchange of new technologies at home and abroad, and international economic and technological exchanges and cooperation.

To thoroughly study and implement the guiding principles of the 20th National Congress of the Communist Party of China and Chinese President Xi Jinping's important instructions and remarks on scientific and technological innovation, the China Hi-Tech Fair 2023 will bring together resources for innovation and focus on the layout and key development areas of China's "14th Five-Year Plan". The CHTF will host exhibitions, conferences, forums, exchanges, and so on, and give full play to the role of the Fair in international scientific and technological exchanges and cooperation and the industrialization of scientific and technological achievements to serve the overall high-quality development of the domestic economy and society, and facilitate the high-quality development of the "Belt and Road" initiative.

## A Galaxy of High-Profile Celebrities at China Hi-Tech Forum

- ★ Sir Christopher Pissarides, winner of the Nobel Memorial Prize in Economic Sciences,  
"There are now many Fortune 500 companies that value the Chinese market and bring new technologies to China."
- ★ Guo Guangcan, Academician of the Chinese Academy of Sciences and quantum information scientist  
"I am very happy to speak at the Forum. Mankind has entered a new era of quantum tools, away from the classic era and classic tools. This is the great significance of the emergence of quantum information. We are about to enter a new era in the development of human society, and the prospects of this era are brilliant."
- ★ Andrew Chi-Chih Yao, winner of the A.M. Turing Award 2000, Academician of the Chinese Academy of Sciences  
"In this fast-changing era of technology, particularly in the field of computer science, my aspiration is to establish a world-class computer science institution in China. It doesn't have to be comprehensive in covering the entire field, but I hope to see tangible progress made in certain crucial areas within a short span of time."
- ★ Guo Aike, Academician of the Chinese Academy of Sciences  
"The human brain is very magnificent, as the most complex intelligent system in the universe. Some poets say the brain is as immense as the sky. Our country now attaches great importance to brain science and memory research. We should concern ourselves with the affairs of the society before enjoying ourselves, and explore the relationship between brain and intelligence on cosmological, macroscopic, mesoscopic, microscopic and other time and space scales, so that artificial intelligence and human intelligence can be synchronized and supplement and assist human intelligence."
- ★ Derek Aboli, President of Qualcomm  
"It is an honor for me to come to the China Hi-Tech Fair and the China High-tech Forum. We look forward to deepening our cooperation with Chinese partners to build the future of mobile Internet including 5G."
- ★ Ma Huateng, Chairman of the Board of Tencent  
"In 1999, when we participated in the first China Hi-Tech Fair, we had the opportunity to access the capital market and raise funds for the first time, laying a foundation for Tencent's robust development."

### Media at a Glance

### Exhibitors at a Glance

### CHTF's Global Prominence

- ★ The China Hi-Tech Fair is the largest and most prominent technology exhibition in China, and is a renowned event with a significant international reputation.
- ★ The China Hi-Tech Fair has strong support from the Chinese government, jointly organized by the Ministry of Commerce, the Ministry of Science and Technology, the Ministry of Industry and Information Technology, the National Development and Reform Commission, the Ministry of Agriculture and Rural Affairs, the National Intellectual Property Administration, the Chinese Academy of Sciences, the Chinese Academy of Engineering, and other related institutions, together with the Shenzhen Municipal People's Government. The Fair has been visited and inspected by a number of state leaders.
- ★ Many enterprises have benefited a great deal at the CHTF. More than 60 multinational companies such as Microsoft, IBM, Sony, Qualcomm, Samsung, HP, Oracle, and Fujitsu have participated in the Fair many times. The Fair has also enabled a large number of outstanding Chinese private enterprises such as Tencent, Tongzhou, Mindray, Kingdee and Han's Laser to go global from here.
- ★ The China Hi-Tech Fair is a highly anticipated event for both domestic and international media, with nearly 1,500 journalists from almost 200 media outlets in attendance at each session. This includes not only Chinese media, but also major print media from overseas and various online professional media outlets.
- ★ The China Hi-Tech Fair attracts a diverse and outstanding professional visitors. With over two decades of successful events, it has gained a reputation as a must-attend event among professionals both in China and abroad. Each year, the Fair draws over 500,000 visitors from around 100 countries.

### Why CHTF

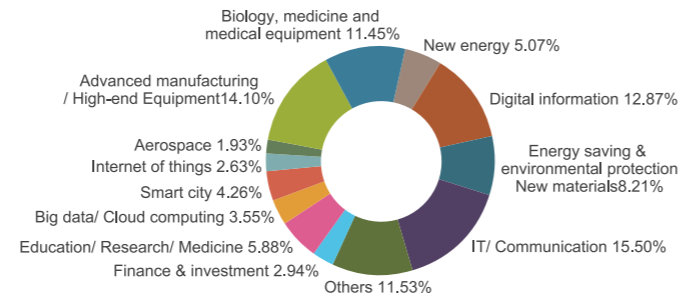

- ★ The China Hi-Tech Fair attracts a large number of domestic and foreign companies, intermediaries, and thousands of investors with a need for technology, providing patent and technology holders opportunities to find partners from around the world.
- ★ Every year, the CHTF showcases over 10,000 high-tech projects, providing investors with access to the latest patents, technologies, projects, and a wealth of investment and cooperation opportunities.
- ★ The China Hi-Tech Fair provides a gateway for global manufacturers of hi-tech products and equipment to enter the Chinese market.
- ★ The CHTF brings together a variety of innovative and entrepreneurial resources, providing a platform for entrepreneurs to showcase, share, and exchange their ideas and experiences through effective project presentations, matchmaking, technology exchanges, experience sharing, and other activities.
- ★ Through high-level press conferences, forums, meetings, and receptions hosted by various authoritative organizations, the China Hi-Tech Fair offers all participants access to a wealth of information and business opportunities.

## Facts & Figures of China Hi-Tech Fair 2022

The China Hi-Tech Fair 2022 had a total physical exhibition area of **406,000** square meters. A total of **5,671** exhibitors participated offline, showcasing **8,667** projects for display and transactions, including **1,302** new products and **407** new technologies making their debut. These projects covered a wide range of fields, such as artificial intelligence, smart driving, intelligent manufacturing, digital economy, 5G commercialization, the Internet of Things, anti-pandemic IT, chip technology, big data and cloud computing, information security, and blockchain. The Fair attracted exhibitors from **41** countries and international organizations, including the United States, Japan, and Australia, as well as exhibition delegations from **24** Chinese provinces and cities, such as Tianjin and Shandong, and **23** universities, such as Tsinghua University and Peking University, displaying numerous scientific research achievements. **156** units received the Outstanding Organizer Award, **107** units received the Outstanding Exhibitor Award, and **1,240** projects received the Outstanding Product Award. A total of **148** high-level forums, professional tech workshops, and other events took place, with over **190** media outlets covering the Fair on site. More than **214,000** visitors from **28** countries and regions participated in person.

### Exhibitors by Industry Classification

Exhibitors come from various industries, mainly electronic information, IT/communication, and environmental protection/new materials.

### Exhibitors' Feedback

**95.41%** of exhibitors believe the CHTF has basically lived up to their expectations

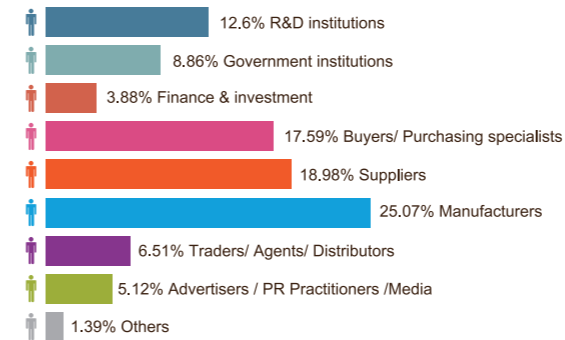

**93.11%** of exhibitors are generally satisfied with the CHTF

**78.83%** of exhibitors plan to participate in CHTF 2022

## Professional Visitors

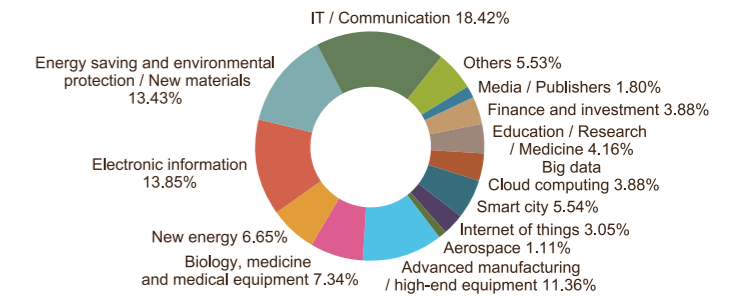

### Professional Visitors by Job Classification

Most professional visitors are buyers (purchasing specialists), manufacturers, traders/ agents/ distributors, suppliers and finance & investment entities.

### Professional Visitors by Industry Classification

Professional visitors are from various industries, mostly in energy saving and environmental protection/ new materials, electronic information, new energy, IT and communication, biology/ medicine and medical equipment, and new energy.

## General Shows

The Futian Venue of the China Hi-Tech Fair 2023 will host three general shows - the National Innovation & Tech Show, International Innovation & Tech Show, and Investment & Consulting Services Exhibition.

### ★ National Innovation & Tech Show

Organized by relevant state ministries, bureaus, institutes, provinces, cities, and universities, the show will showcase the achievements of technological innovation and the policy for talent and investment attraction. The ministries, bureaus, and institutes will display the latest scientific research achievements of the "14th Five-Year Plan," national major science and technology projects, and national strategic emerging industries. There will be dedicated pavilions for technologically-advanced SMEs and industry champions, showcasing new products and technologies from national technologically-advanced SMEs, leading enterprises, Fortune 500 companies, and unicorn companies.

Phone: 0755-82848961、0755-82848894

Email: jorya@chtf.com、mengting@chtf.com

### ★ International Innovation & Tech Show

The show will showcase innovative technologies and products from across the world, with a focus on strengthening international cooperation under the "Belt and Road" initiative. Taking advantage of the 10th anniversary of the initiative, the Show will concentrate on the fields of new generation information technology and smart cities, bringing together global innovation resources, fostering cooperation and reciprocity, and creating a technology innovation cooperation platform that is open to the world.

Phone: 0755-82848695,82848864,82848652

Email: yangd@chtf.com、cathy\_cui@chtf.com、selenaxie@chtf.com

### ★ Investment & Consulting Services Exhibition

Investment and financing institutions, technology transfer service organizations, financial service institutions, and other relevant intermediary organizations will be invited to provide comprehensive support and hi-tech consultation services for technological innovation and transformation.

Phone: 0755-82848889,82848891

Email: 244923542@qq.com

## Professional Shows

The professional shows include Next Generation IT Exhibition, Environmental Protection Exhibition, New Display Technology Exhibition, Smart City Exhibition, Digital Healthcare Exhibition and High-end Equipment Manufacturing Exhibition.

### ● Next Generation IT Exhibition

The exhibition will present the latest advancements, trends, and applications of new generation information technology across industries. It will feature four main theme zones, highlighting the digital economy, artificial intelligence, smart terminals, 5G commercialization and the Internet of Things, as well as two specialized zones dedicated to smart manufacturing and AI-generated content (AIGC). The exhibition will also showcase trending technologies and products such as chip technology, big data and cloud computing, information security, and blockchain.

Phone: 0755-82848854,82848852

Email: zhangl@chtf.com

### ● Environmental Protection Exhibition

The exhibition will focus on the trends related to environmental protection and energy conservation, resources and environment, and green living, in line with China's goals of carbon peaking and carbon neutrality. It will showcase the latest products, technologies, and applications in areas such as water treatment, air purification, waste treatment, smart environmental protection, energy storage, charging stations, smart power, environmentally-friendly materials, green buildings, and energy-saving applications.

Phone: 0755-82848781,82848862

Email: chenbin1227@chtf.com

### ● New Display Technology Exhibition

The exhibition will showcase the most cutting-edge technologies and products, including LCD, OLED, QLED, MICRO-LED, MINI-LED, large-screen laser projection displays, flexible displays, semiconductor displays, ultra-high-definition displays, semiconductor materials, equipment and design, sensors, and other advanced technologies and products.

Phone: 0755-86149990,86149086,18719131024

Email: 409781219@qq.com、lidianfei@chinafpd.net

### ● Digital Healthcare Exhibition

The exhibition will concentrate on high-end digital medical equipment and instruments utilized in hospital settings, with a special emphasis on new products, technologies, and applications in areas such as computed imaging, digital ultrasound, remote medical care, VR surgery, smart hospitals, big data healthcare, and intelligent traditional Chinese medicine. The objective of the exhibition is to encourage the convergence of the industry chain ecosystem and accelerate the digital transformation of the medical and health industry.  
Phone: 0755-88312781,4008300166  
Email: shubai.zhang@informa.com

### ● Smart City Exhibition

The exhibition will provide a comprehensive display of innovative application technologies, outstanding research and development achievements, and industry solutions in the smart city field. The exhibition will focus on the concept of "digital+ smart cities" and the application of the digital economy in various industries, as well as typical cases and achievements in digital smart management.  
Phone: 0755-86954682  
Email: linda\_zhou@asiadg.com

### ● High-end Equipment Manufacturing Exhibition

In line with the national "Made in China 2025" strategy, the exhibition will showcase the latest technologies, products, and solutions in areas such as smart equipment, machine tools, smart robots, smart factories, industrial customization, laser products, and additive manufacturing.  
Phone: 0755-82848961  
Email: jorya@chtf.com

## Forums

### ★ China Hi-Tech Forum

As an integral part of the China Hi-Tech Fair, the China Hi-Tech Forum maintains a commitment to high standards, authority, and internationalization, serving as a prominent intellectual gathering that takes the lead in technological development. The Forum has a global perspective and aligns with Chinese strategies, with a focus on current trends in world technology development, macroeconomics, and international cooperation. It invites renowned Chinese and international experts, scholars, and executives of leading companies to share their insights on the latest developments in relevant fields.

### ★ High-level Forums Organized by China's Ministries and Commissions

High-level and authoritative professional forums are organized by national departments, bureaus, and research institutions based on their respective key areas. The forums aim to disseminate new national policies for science and technology and economic development and explore new trends in technological innovation.

### ★ Professional Tech Workshops

Professional tech workshops that match the themes of different exhibition areas will be hosted. Industry organizations, technology alliances, industry-leading enterprises, governments, universities, and research institutes in strategic cooperation with CHTF will also organize professional tech events.

## Other Events

### ★ Launches of New Products and Technologies

As a value-added activity of the China Hi-Tech Fair, the event enhances the visibility of new products and technologies through presentations, publicity, news coverage, networking, serving as an effective information release platform.

### ★ Tech Roadshow Training

Guests' case studies of their successful financing experiences, venture capitalists' speeches (on business models, investment projects and team selection), and successful case analysis, will be a chance of training, counseling and consulting for startups and other parties with financing needs, which can improve the financing capabilities of start-ups.

### ★ Tech Roadshows

Roadshows will be held to recommend investors to start-ups with financing needs and projects that meet the national industry orientation and have mature industrialization conditions and broad market prospects, serving as a face-to-face communication and efficient match-making platform for outstanding high-tech enterprises and investment entities.

### ★ B2B Meetings

One-to-one matchmaking services will be organized between project owners and investors with similar conditions and expectations, providing a number of free value-added services including financing plan design, business model instructions, Internet + marketing counseling and team building suggestions.

### ★ International Business Matchmaking

Serving as a platform for one-on-one matchmaking between Chinese companies and international exhibitors, the event will create an effective platform for cooperation between Chinese and foreign enterprises.

### ★ Awards

Outstanding Product, Outstanding Exhibitor, Outstanding Organizer and other awards will be presented to exhibitors, projects and products. Products and technologies that win the Outstanding Product Award will be featured as key products and technologies at the Fair, and will be given additional opportunities for promotion and publicity.

## Online Events

Transaction Services, including project solicitation, technical review, financing consultation, and online promotion and match-making of key projects, are held throughout the year.

Phone: 0755-82848892,82848884

## How to Visit CHTF

### ◆ Pre-registration for professional visitors

Visitors are advised to pre-register through the China Hi-Tech Fair's Chinese website and WeChat before October 31. Free entry permits will be offered after being reviewed and confirmed by the Show Organizer. Please refer to the CHTF website [www.chtf.com](http://www.chtf.com) for details.

Phone: 0755-82849990,82849991

Scan for free admission

### ◆ Special offer for group visitors

Associations, chambers of commerce, and commercial organizations are welcome to send business delegations to the Fair. Group visitors can enjoy the following privileges, as long as the delegation covers at least 10 enterprises or institutions from outside of Shenzhen and submits all the required information for the approval and confirmation by the Fair Organizer.

1. Delegation members can get multi-entry permits free of charge;
2. Delegation members can get full-range exhibitor-related information;
3. Delegation organizers are entitled to free invitations for the China Hi-Tech Forum and other value-added services.
