Two Lists, One Story

CHINA CUSTOMS

List 1 · Belgium's factories 名单一：比利时的工厂

List 2 · Belgium's fields 名单二：比利时的田野

- 663 records · 648 active · 470+ companies · 44 categories
- ≈ 190 agricultural enterprises — pears, chicory, seedlings, feed, pet food…

Together: more than 850 in total

- From AB InBev to Westvleteren · From Barry Callebaut to Godiva, Neuhaus, Leonidas

The Main Line: Risk Management

政策变化的主线：风险管理

CHINA CUSTOMS

Focus control on the truly high-risk areas.

Give compliant companies the greatest convenience.

- 把监管力量集中到真正高风险的环节，让合规企业获得最大的便利。

Three major changes · 三个变化

- ① Differentiated — not one-size-fits-all 差异化，而不是一刀切
- ② Automatic — not re-application 自动延续，而不是到期重办
- ③ Precise — not heavier 精准，而不是更严

① Differentiated — Not One-Size-Fits-All

变化一：管理越来越差异化，而不是一刀切

CHINA CUSTOMS

New rules since June 1, 2026: Decree No. 280 (GACC)

– Official-recommendation products: fixed 18 → 17 categories, adjusted with risk

– “List registration” fast channel for partner countries

– 6 categories of primary farm products → simpler declaration

Official English version, published on GACC website

海关总署官网英文版

The list is still growing: +113 Belgian registrations since 2024.

• Tips: dairy & meat — ask your authority early (report + recommendation letter); others — apply online, ~20 working days.

② Automatic — Not Re-Application

变化二：延续越来越自动，而不是到期重办

CHINA CUSTOMS

Five-year registrations now renew automatically.

– Only two exceptions need a new application: meat & meat products · bird's nest

– Window: 3–12 months before expiry

Happening next month:

– Nov–Dec 2026: 212 Belgian registrations expire — 165 companies — none is meat

They do NOTHING. Automatic 5-year extension. Free of charge.

- 下个月集中到期212条、涉及165家企业——全部自动延续，无需申请、不收费。

Belgian Pork: One of Our Best Stories

比利时猪肉：中比检疫合作最成功的故事之一

CHINA CUSTOMS

- Aug 2018 — 20 Belgian pork companies registered
- Paused by African swine fever — 5+ years of joint efforts
- Feb 2024 — first container left Antwerp again

Oct 13, 2026 — Belgium is no longer on the ASF list

- Today: all 20 registrations active. Trotters also in the market.

Remember:

Expires: July 31, 2028 → Apply: end of Jul 2027 – end of Apr 2028

- 唯一需要主动延续的类别——请提前办好。

③ Precise — Not Heavier

变化三：监管越来越精准，而不是越来越严

CHINA CUSTOMS

- Newcastle disease: measures only in East & West Flanders — not nationwide
  - – Pears approved May 2024 — registration per orchard
  - **9 expansions in 18 months → 102 records, 27 companies**
- Apples approved June 2026 (Ann. 76) — orchards, packers, cold treatment checked
- Most fresh-vegetable categories in Europe — incl. 7 witloof chicory companies

Commodity inspection:

- – Annual spot checks on goods outside the catalogue (baby products, electronics, appliances…)
- – “Outside the catalogue” ≠ no quality responsibility. Penalty standards are public.

Three Priorities for Companies

企业的三个重点

CHINA CUSTOMS

1. Declaration 申报

– Food: box “519” = China reg. No.; purpose = “edible” — wrong declaration not accepted

– Primary farm products: 18-digit reg. No. (Ann. 219/2025); no health certificate needed

2. Documents & packaging 单证和包装

– Wood packaging must meet international standards; certificates must be genuine

– Most goods stuck at the border fail on these two — not on registration

3. Different products, different rules 规则不要搞混

– Food: 5 yrs, auto · Feed: 5 yrs, by AFSCA 6 months ahead · Agri: mostly long-term

Feed & Pet Food: New Rules in 3 Days

饲料和宠物食品：三天后生效的新办法

CHINA CUSTOMS

Revised Measures (Decree No. 283) — in force November 1, 2026

- – Bulk feed materials: proper labels · special containers · no mixed transport
- – Records kept for 3 years
- – Feed not yet inspected must not be moved, sold or used

• Renewal: handled by AFSCA — 6 months before expiry

20+ Belgian feed additive & pet food companies — please self-check against the new rules

- **cross-border e-commerce**

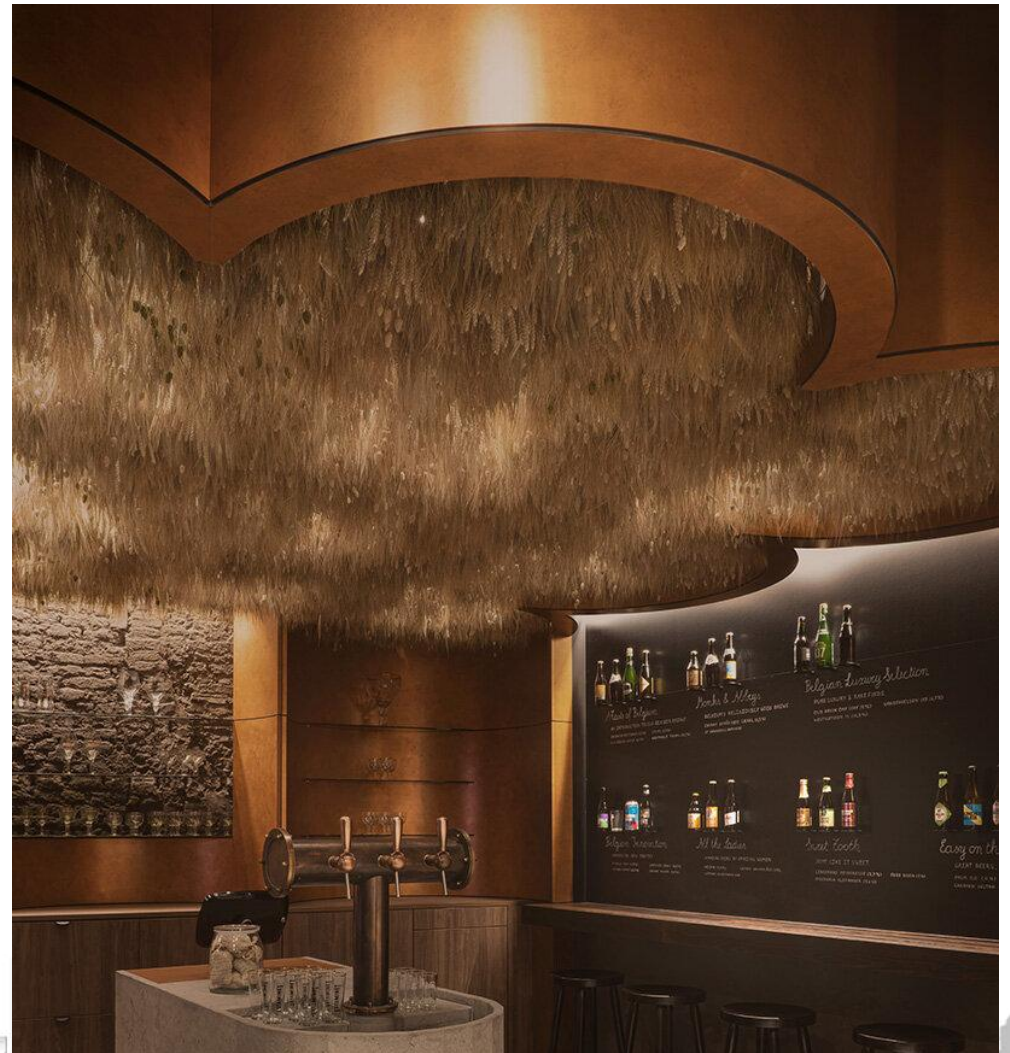

The Measure of Our Food Trade

中比食品贸易的度量

CHINA CUSTOMS

The length of the two lists is the measure of China–Belgium food trade.

- 企业最需要的是清晰透明的规则。
