

PEC is an international technology supplier with a local presence in Europe (Belgium, Hungary and Germany), the United States, China and Japan. We offer solutions and expertise in Energy Storage Devices (Cell, Module and Battery) Testing Equipment, Cell Manufacturing Equipment and Cash Operations for Central Banks.

In our energy storage division, PEC employees are working on the technology and equipment for the development and manufacturing of tomorrow's renewable energy sources. For more information, visit us at www.peccorp.com.

For our HuZhou plant we are looking for a:

PRODUCTION MANAGER

Your tasks

As the production coordinator, you will run the production (manual assembly) in PEC's workshop.

- Continuously supervising a team of 10-20 production technicians in the workshops to ensure that the production is on time and meets PEC's safety and quality standards
You follow up the material flow for the running production orders in our ERP system
- You communicate with production engineering on a technical level and report to the production manager
- You keep the workshop and tools clean/in order/safe

Your skills

We are looking for a strongly motivated professional, meeting the following requirements:

- Higher degree of education (minimum Bachelor's degree)
- Experience in recruitment is an important plus
- Strong communication skills in Chinese (Mandarin) and English
- Good organizational abilities: structural and analytical thinking, establishing priorities with respect for the deadlines
- You have at least 2 years of experience as a production assistant/production supervisor
- You're a skilled troubleshooter.
- Knowledge/ experience in assembling processes
- SAP knowledge is a plus
- The Production Coordinator is required to work 10 hours per day, with compensated 8hr Saturday or Sunday work if needed (ca 10-50% in a year)

Our offer

- An exciting job in an international and hi-tech working environment
- Challenging career opportunities and the chance to take initiative

Up for the challenge?
