"Marc was key to developing the DSL Chipset deployment strategy in his role as Director of Marketing Asia. Marc demonstrates a disciplined focus in creating and executing to strategy, working across a large matrixed organization. He is a senior resource and will be an asset to any entity that is looking to either create or ramp a new Product Line"

– Irvind S. Ghai, VP Qualcomm

SELECT PERFORMANCE HIGHLIGHTS

- Added 20+ new ODM Key Accounts for a major semiconductor SoC (System on Chip) solutions provider in Asia, which lead to add 100+ M USD annual sales in 2 years' time, by leading and coaching a dedicated Go-To-Market Sales and Application support team and very intensive Client visits all over Asia •
- Reorganized Asia's Go-to-Market Sales & Business Development Actions for a leading semiconductor firm towards its worldwide Top 50 EU/US Clients active in the region by realigning overseas support to those teams in need. This lead to tripling the pipeline of new design-in to design-win from 60+ MUSD to nearly 180 MUSD within 1 year •
- Successfully brought a new DVB-T solution out of the Shanghai based labs into new series of Smart TV solutions for the European Market by orchestrating and streamlining Key Technical Support Matters towards EU TV OEMs and by coaching the technical teams in Shanghai as well as on-site with the Clients. This reversed the downtrend in Sales into a never seen increase adding 40+ MUSD annual revenues within 12 months •
- Set up a new global network of Agents and Distributors for a start-up in Renewable Energy Solutions incl. appropriate selecting and coaching Agents, taking public speaking slots and doing very intensive series of Client visits. This lead to increase show first revenues of 10+ MUSD having laid the ground for 30+ MUSD for next 2 years to come •
- Started Alcatel's new Microelectronics Division in China incl. Sales, Distribution, Field Application Support, IC design center, thus opening doors with Key Accounts such as Huawei and ZTE. This lead to add 80+ MUSD Annual Sales of Hi-Tech System on Chip solutions within 2,5 years •

“Marc stepped in to help my company sell its new line of next-gen consumer electronics products. Marc proved to be a brilliant door opener and displayed the full power of his extensive business network. Within less than a week he had us talking face-to-face with the key decision makers in numerous ideal multinational targets as well as several sources of financial backing”.

– Richard Ireland, Marketing Manager Shanghai9

 - LinkedIn, Skype, WeChat, WhatsApp, Moovly •
-

PAST INDUSTRIES EXAMPLES

- Hi-Tech Electronics • IoT • Consulting R&D Centre spin-outs •

- Mechatronics & Machine building •

- City Infrastructure Advisory • Energy Efficiency • Blue Energy •

“Marc’s ability to get things done left a deep impression on me. He wisely started working on the largest potential Clients in Germany and Turkey and managed to get our solutions launched in several new series of TVs at the IFA show in Berlin. After that, we concurred more European and Japanese Tier-1 Accounts in Holland, Belgium and Spain. Marc is culturally very savvy. He knows when to speak, but more importantly when to listen to the Clients. He got the things properly handled with support from internally both out of Asia and from our US HQ. Our revenues in the region Marc was assigned to, then surged. Last but not least, it is always fun to be coached by Marc while on a business trip”.

– Joy Tang, Applications Overseas Manager Sigma Designs
